## EXPERIENCE & CO-CURRICULAR ACTIVITIES

### INTERNSHIP & COURSES:

I worked as a MERN Stack Intern at WHY Global Services for six months, where I gained skills in MongoDB, React, Node, Express, Figma, JavaScript, HTML, CSS, and Bootstrap, and completed projects focused on turf booking and crowdfunding websites.

### COMPETITION & PARTICIPANTS:

- Participated in a workshop on "**WEB DESIGN PROGRAM**" conducted by AICL Learning.

- Received Elite certificate from NPTEL for "**FUNDAMENTALS OF ARTIFICIAL INTELLIGENCE**" 12 weeks course completion.
- Completed the "SELF-DRIVING CAR" presentation at Knowledge Institution of Technology, Kakapalayam, Salem.

## PROJECTS

### TURF BOOKING WEBSITE:

I developed a **Turf Booking Website** named **TURF NEXUS** using the MERN stack (MongoDB, React, Express, and Node). This website allows users to book sports turf slots seamlessly, manage reservations, and view availability in real time.

### CROWD-FUNDING WEBSITE:

**FundCommunity** is a **MERN stack crowdfunding platform** that connects creators with supporters. It allows users to create campaign pages and set funding goals. It efficiently manages data with MongoDB, enhances user experience with React, and securely processes requests using Express and Node.js, making bringing innovative projects to life easy**.**

### ROCK PAPER SCISSOR:

**Rock Paper Scissor** is a MERN stack game platform that enables players to challenge each other in classic rock-paper-scissors matches. It efficiently manages game data with MongoDB, enhances user experience with React, and securely processes requests using Express and Node.js.
